PUTNAM - September 23rd

The Putnam show was a "Salute to Bass Capital of the World", and featured a contest for the largest fish story. It is easy to see who are the best liars in the AHS. The first place winner was the President, Mrs. John Wylie and the second place went to Mr. James E. Monroe, the Executive Secretary. Mrs. Wylie told of catching a large fish near Crescent City and when she went to clean it she found another inside. She thought she had two for one so she cleaned the second only to find an oyster, which made three for one. Then in the oyster she found a pearl and to prove it she had it mounted in an ear-bob. She said she was coming back soon and catch another fish so she could get a mate to the ear-bob.

Mr. Monroe told of training a shiner minnow during hard times when he could not afford to purchase fancy fishing equipment. He had the minnow trained so that when the bass chased it it would jump over the boat and as the bass followed it over he would hit the bass with the oar.

In the serious part of the show the sweepstakes went to Ed Wissner in the amateur section and to Carver & Roxy's Nursery in the commercial section.
